

illumination

There are 237,000 roads in the UK, linking nearly 3,200 towns, cities and villages. Criss-crossing these are 440,000 commercial vehicles. That's a lot of bulbs, beacons, reversing and brake lights.

Dun-Bri Group is the UK's only specialist commercial vehicle lighting supplier. From our central offices we cover the whole of the UK, with over 8,000 products in stock for overnight delivery.

Lighting solutions aren't just part of our business. They *are* our business. We've been doing only this for over 20 years and supply over 1 million products to 1,500 companies every year.

We stock all the major lighting brands and can supply everything from a headlight to a rearlight and everything in between. We can also produce bespoke designs. Plus all our products come with their own Dun-Bri warranty in addition to the manufacturers.
